\*\*\*AUTHORS SUBJECT TO CHANGE\*\*\*

**AN ACT** *to amend* 119.04 (1); *to create* 120.12 (29) of the statutes; **relating to:**

requiring school boards to adopt policies to prohibit the use of wireless communication devices during instructional time.

---

***Analysis by the Legislative Reference Bureau***

This bill requires each school board to adopt, by July 1, 2026, a policy that generally prohibits pupils from using wireless communication devices during instructional time. For purposes of these policies, the bill requires each school board to define a “wireless communication device” as a portable wireless device that is capable of providing voice, messaging, or other data communication between two or more parties. The bill expressly states that this definition must include cellular phones, tablet computers, laptop computers, and gaming devices. Finally, under the bill, each school board must include in its wireless communication device policy exceptions to the general prohibition against using wireless communication devices during instructional time 1) for emergencies and perceived threats, 2) to manage a pupil’s health care, 3) for a use included in an individualized education program or 504 plan, and 4) for a use authorized by a teacher for educational purposes. The bill also authorizes a school board to include other exceptions if the school board determines that doing so is beneficial for pupil education or well-being.
